RACER CLUB

Welcome to our product **discount club** for racers. This new initiative will enable club members to buy top quality high performance products from the leading brands at subsidised prices.

By joining our Racer Club all ACU licence holders who race in the UK will secure discounts off each brand that we supply. We have very close links and relationships with many manufacturers and importers of racing products and have negotiated special prices to enable us to pass these savings on to club members.

- **Offer open to all ACU licence holding racers.**
- **Racing products (only) available for Road racing / Moto-Cross / Enduro etc.**
- **Free to join – Members only need to register their ACU / Bike details to qualify.**
- **Discounts of around **20%** off are available once member is registered.**
- **Parts can be purchased only for make and model(s) registered to prevent abuse.**
- **Licence number and registration details to be given at point of order to secure discount.**
- **Regular email newsletter to inform members of special deals and new products.**
- **Join by email on by telephone on **0121 753 0415** or by e-mail on riderclub@calsport.co.uk**

Products available to Club Members are listed on the attached sheets.

- World leaders in exhaust system technology.
- Healthy horsepower increases.
- Significantly reduced weight over standard.
- Exquisite build quality ensuring easy installation and longevity.
- F.I.M approved noise levels.
- Spare parts availability to maintain and protect your investment.

Stainless steel or titanium full systems and slip-ons available for:

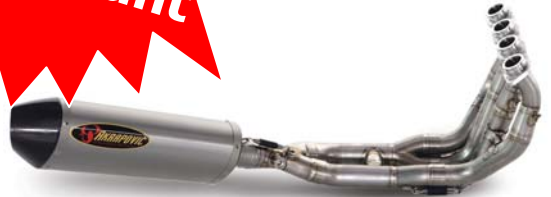

- **Supersport / Superstock / Superbike** – Huge power gains & weight savings with FIM approved noise levels.

- **Moto-Cross / Enduro / ATV** – Strong & durable exhausts giving excellent power gains & weight savings with 94db, 96db or 98db baffle inserts making them ideal to comply with any UK noise regulations.

Forged alloy & magnesium wheels from Japan
15% off

- Forged Aluminium or Forged Magnesium – Lightweight and ultra strong.
 - Better weight / mass distribution – mass centred in the hub.
- Supplied ready to fit with CNC alloy spacers and Koyo Seiko bearings & sprocket.
 - Resistant to oxidization – easy to maintain and keep clean.
- 5 colours available – Pearl White / Black Metallic / Polished / Gun Metal / Bronze

INDUCTION KITS

Used in Formula 1, Moto GP, AMA and World Superbike, BMC are the best race filters that money can buy!

- The highest flowing cotton / gauze race filters available
- Increased horsepower / Improved throttle response
- Superior quality, fit & performance to all other aftermarket filters
- Washable / Re-usable

Available for all Supersport / Superstock / Superbike models.

20 % DISCOUNT ON ALL AIR FILTERS

Power Commander, fuel injection and ignition management modules - PCII / PCIII / PCIIIR / PCIIIUSB

- Crisper Throttle Response / Increased Horsepower / Optimised Fuelling.
- Lightweight, compact and sealed for durability and reliability.
- Fuel curve adjustment with LED display on face plate for fine tuning.
- Fully adjustable via buttons or PC with the Dynojet Control Centre Software (included).

Available for all Supersport / Superstock / Superbike models.

15 % OFF ALL POWER COMMANDERS

Screens – 20 % discount.

High quality screens from Zero Gravity, the originators of the "double bubble" windscreen!

- Race Proven - Chosen by British Superbike teams Crescent Rizla Suzuki and Hawk Kawasaki
- Highest Optical Quality - Blow moulded like an aircraft canopy, resulting in a distortion-free optic lens.
- Strength Plus Flexibility - High grade acrylic windscreen to absorb vibrations and resist cracking.

Best Fit to OEM Fairings - Zero Gravity windscreens are factory pre-drilled for a precision fit.

GALFER

RACING EQUIPMENT BRAKES

20 %

DISCOUNT

BRITISH SUPERSPORT CHAMPIONS 2006 NORTHPOINT HONDA

Wave discs, brake pads & braided steel brake hose kits from the market leading brake manufacturer.

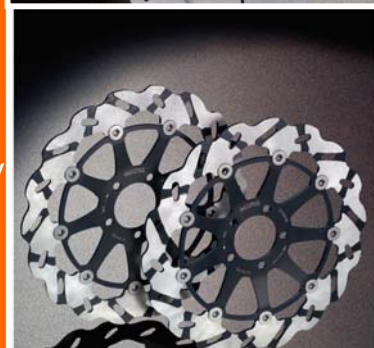

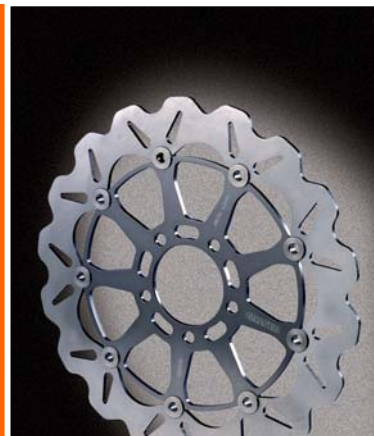

Discs

Galfer Wave® discs offer several benefits over conventional designs.

- High carbon content steel rotors offer excellent friction properties.
- Significantly lighter than standard discs therefore reducing unsprung weight.
- The Wave® shape allows expansion and contraction with less tendency to warp.
- The rotor shape dissipates heat as it rotates, meaning a lower temperature of the whole brake system.
- Available for Superbikes / Off Road / ATV

•Lines

- Galfer's range of brake line kits are made with Dupont Braided Steel and are PTFE 62 Teflon coated to prevent scratches and protect the fluid from humidity. Line kits come with banjo bolts and washers and are pre-formed and pre-packaged to suit most popular models.
- Dupont PTFE 62 Teflon coated Braided Steel – Making line expansion almost zero
- Require less pressure at the lever – Enables the rider to use less force and stop faster
- Pre-formed, complete with banjo bolts – Fit straight to the bike with no compromise with alignment and fit
- Front kits use dual lines from the master cylinder – Simply the best and safest way of fitting brake hoses.

•Pads

- Several grades of Galfer performance brake pads are available for various different uses:
- Available for Superbikes / Off Road / ATV / Trials
- Powerful, progressive feel
- No fade
- Low pad/disc wear
- Minimal loss of efficiency in wet conditions

GILLES TOOLING

CONTROLS – REARSETS – HANDLEBARS – CHAIN ADJUSTERS

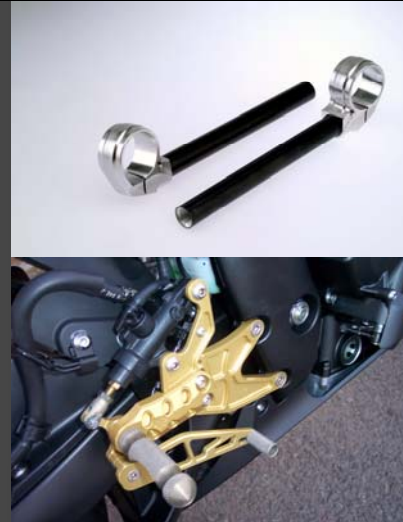

20 % DISCOUNT

GP Light Clip-ons

Fixed clip-ons designed for racing.

- Ultra Light Construction – 246g per pair
- High Quality AL2007 Alloy construction
- 6 degree optimum racing angle
- Replacement parts available

Threaded bar ends offers choice of bar end lengths

Adjustable rearsets

German, precision made adjustable footrest kits that offer many innovative features

- CNC machined from aircraft spec' alloy- Strong to resist crash damage.
- Fully adjustable
- Carbon heel plates included.
- Precision bearing mounted lever arms.
- O/E brake light switch retained if required
- All linkages / bolts / hose extensions included.
- Anodised colours - titanium, gold or black.
- Many kits can be converted to reverse shift for racing.

All spare component parts available (With individual part numbers)

Racing Shiftholder

• Certain models suffer with a vague gear change action, causing missed or sloppy shifts, especially when racing. Gilles have designed a product to eliminate the vague action and offer a precise and positive action between gear changes.

- No play due to double needle roller bearing mounting
- Lever enables different fulcrum adjustments
- Gear lever is adjustable for foot length

GP Chain Adjusters

- The adjusters enable quick and precise wheel alignment and chain adjustment.
- CNC machined from lightweight AL7075 alloy
- Degree markings for precise & easy adjustment from the back
- Slider moves back & forth by turning adjustment screw
- GP chain adjusters can be fitted with paddock stand lifters
- Lifter enables quick & safe lifting of the bike.
- A highly technical Moto GP look can be achieved

ACM Safety Locking Nut

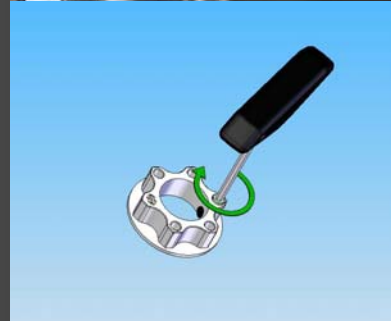

Optically matched to complement Gilles KTS kits or as a stand-alone technical looking safety feature.

- Made from type TI6ALV4 Titanium
- Ultra light weight only 20g
- Multifunction areas – Wheel Axle, Yoke Nut, Swinging Arm Pivot
- Innovative Pin-Lock design with self-locking feature
- Integrated composite washer protects components

FO One Yokes

Available for Off Road, Supermoto, Road Race and Road applications, the Gilles FO-One Yoke system is unique and offers an innovative way of clamping the forks to prevent stiction and the offset adjustments have almost unlimited possibilities to arrive at the perfect set up for the serious rider.

- Patented 'All-Over-Clamping' guarantees stability by unique eccentric clamping system
- Ultra-Light construction
- Unique rigid design means no flex
- Application of different eccentric offsets enables individual off-set adjustments

Suspension & Damping

20% off Hyperpro Progressive fork springs

Every Hyperpro fork spring kit comes with a complete package that includes progressive springs, fork oil, and a thorough manual walks you through every step of the installation, and also gives you optimum settings, allowing you to set your bike up easily.

The benefits of progressive springs are numerous:

- Shorter braking distances
- Better handling
- Improved comfort
- Reduced lap times.

20% off Hyperpro Steering Damper Kits

- Fully adjustable - Damping can be adjusted in 22 positions.
- Fully rebuildable with spare parts availability.
- Twin-tube clamp. This ensures that the clamping force of the tube-clamp does not obstruct the piston.
- Low friction design due to Ø8mm piston rod with special surface treatment.
- One-piece piston rod - Perfect alignment through the slide bearings and no excessive force on the piston.
- Triple function seals. Dust scraper and double oil seal, ensuring that dust cannot enter and oil cannot exit.
- Nitrogen pressurised heat expansion reservoir - Gas pressure prevents the forming of air bubbles.

Available as side mounting or top mounting 916 style, and supplied with CNC machined alloy fitting kits

15% off Hyperpro Shocks

Hyperpro's range of shocks offer fully adjustable pre-load adjustment, high / low speed compression and rebound damping. The top spec models have all the advantages of low stiction carbon nitride coated 16mm rod, CNC machined 7075 aircraft alloy body, optional integrated hydraulic spring preload adjuster and shock length adjustment, for easy ride height changes. All shocks come fitted with purple progressive springs and a complete user friendly set up manual.

Suspension & Damping

20% off Sprint – Pro-Race and SXC style steering dampers and fitting kits

- 13 position- easy positive click, fully adjustable
- Low friction seals to give a consistent feel
- 'O' ring controlled heat expansion device to prevent heat seizure
- Full factory support - rebuild & repair service
- Precision machined from billet alloy
- Kits fit with no modifications necessary

Mounts damper so it can be easily adjusted on the move

QA Throttles & Exhaust Hangers

Quick Action Throttle - **15 % Discount on all QA throttles**

After extensive research and development, Japanese tuners, Active have launched a range of quick action throttle kits, which are available for specific models or as a universal application.

- Complete kit including Grips / Holder / Cables / All necessary fittings
- CNC machined alloy holder
- Low friction tube for smoother action
- Increased diameter pulley gives shorter throttle action
- Universal or model specific applications
- Additional optional kill switch available

Exhaust Hangers - **15 % Discount on all exhaust hangers**

Lightweight tubular replacement silencer mounting brackets replace the original exhaust hanger.

- Lightweight & Strong Polished Alloy or Satin Black All Stainless Fasteners Supplied
